PROJECTS AND CAMPAIGNS

Asociația Eu și Endometrioza

75% of the adolescents with chronic pain which doesn't feel release with medication are diagnosed surgically with Endometriosis.

Almost
500.000
women in Romania
are suffering from
Endometriosis!

10% of women of reproductive age are diagnosed with Endometriosis, but it has also been found in girls with had not yet their first menstruation.

9-12 years
is the average
for diagnostics
Endometriosis in
Romania!

A mith: pain is normal!!

Endometriosis is responsible for 40-50% of infertility cases!

ENDODYSSEY

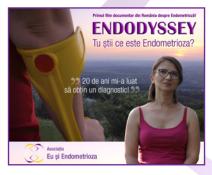

Me and Endometriosis Association presents

ENDODYSSEY

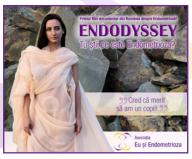

The first awareness endometriosis movie in Romania which presents for the first time in our country endometriosis life odyssey, in a journey through the world of patients who suffer from this condition, with all its aspects: pain, giving up, surgeries, hope and joy!

You will find out from these patients and doctors how an endometriosis life looks like and you will understand exactly why s so important to know what is endometriosis.

ENDODYSSEY

PREMIERE - 2022, 14TH OCTOBER - NATIONAL PEASEANT MUSEUM, BUCHAREST, ROMANIA

ENDODYSSEY

ONEȘTI RELEASE - 2022, 24TH NOVEMBER BR<mark>AȘ</mark>OV RELEASE - 2023, 26TH JANUARY

Emotions. This is the specific word for all our launching moments of Endodyssey. More than 700 participants in these three cities, 150 students of postliceal medical assistants school and 30 doctors from Onesti hospitals.

Endodyssey writes another endometriosis history file in Romania providing information to those who are now preparing to help Romanian patients soon, but also to doctors who support them now. Their questions were related to diagnosis and medical treatment of endometriosis, and from public we heard voices of those already diagnosed and even with multiple surgeries. With tears in their eyes, because it was for the forst time when all their fight against anedometriosis was showed to public area. They are not alone anymore and Endodyssey gave to all of them a Voice!

ENDODYSSEY

More than 1000 people

from Romania and Republic of Moldova watched Endodyssey in almost 5 month since it was launched.

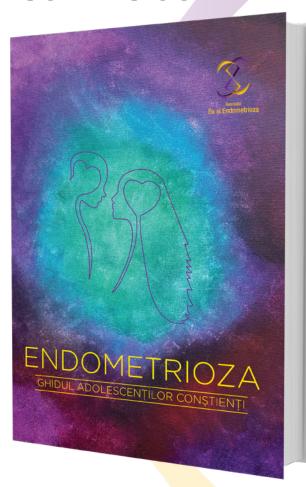

Eu și Endometrioza

ENDOMETRIOSIS THE AWARE ADOLESCENT'S GUIDE

A testimony guide, about the beginning of life, adolescence, about health and endometriosis, recommended to be read by both young women and young people at the beginning of the journey, as well as parents, school and medical staff alike.

The guide presents the beginning of menstrual life in the body of woman, hormonal and emotional changes through which it can pass, but also the possible effects of imbalances, which can leads, in some cases, to endometriosis.

We go through, step by step, to what it means for adolescent girls, diagnosis, drug treatment and endometriosis surgery, the challenges that come along with endometriosis but also methods to help managing this disease. We address all this information in a manner suitable to young people alike, because endometriosis affects at the social level, families, work and birth rate, and young men also need to know how to support a woman with endometriosis which can be: their colleague, sister, mother, girlfriend, future partner or even the teacher with whom interact every day.

ENDOMETRIOSIS THE AWARE ADOLESCENT'S GUIDE

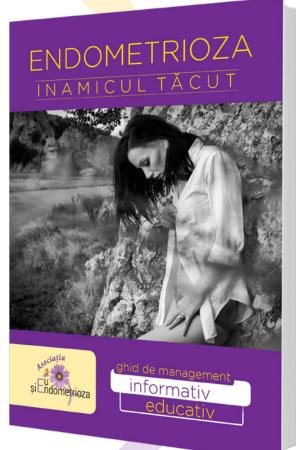

Our launching events are atmosphere full of emotion, in which I present the endometriosis case reports, relevant information about the diagnosis and treatment of endometriosis, as well as what a healthy lifestyle looks like which can help in the management of this disease. As almost every time at the events of awareness given to teenagers, I received a lot of questions from teenage boys too, a sign that they understand and are aware of the very important role they play in supporting their colleagues them when there is a need to provide it. Association Me and Endometriosis offered with this opportunity, to all participants, free of charge, one copy of Endometriosis — the aware adolescents guide.

THE FIRST INFORMA<mark>TIVE - EDUCATIONAL MANAGEMENT ENDOMETRIOSIS GUIDE IN ROMANIA</mark>

ENDOMETRIOSIS - THE SILEN ENEMY

The need to publish a guide to describe the management of this pathology, regardless of the age at which it is discovered it came naturally, as a result of the need for information in Romania, being the first material informative-educational in our country, that aimed at the management of endometriosis, dedicated to patients suffering from this pathology, but also extremely useful for medical professionals who want to know more about this condition.

*All the medical information in our projects is verified and supervised by medical endometriosis specialists, both Romanian and worldwide and it is covered by hundreds of bibliographic references in the study of endometriosis.

HELP

Discounts on investigations, emotional and moral support support groups, patient community.

INFORMATION

We are constantly publishing relevant information, interviews with different specialists and guides.

SUPPORT

We support and collaborate with Romanian Government and Institutions in a national endometriosis program and a framework legislation by which each of us to be able to benefit from state aid, under different forms, in order to treat optimally Endometriosis.

HELP FOR MEMBERS SOCIAL CASES:

Humanitarian calls for social cases, advanced stages of deeply infiltrative endometriosis that required complex surgery.

INFORMATION

2500 "Endometriosis - The aware adolescents guide" offered until april 2023 to teenagers.

Over 800 students, future assistants, doctors, teachers from Romania received free of charge the guide.

2000 copies of "Endometriosis – **The Silent Enemy"** of which as many women and medical staff learned information about endometriosis.

INFORMATION

Approximately 1000 general practitioners from Romania

Almost **2000 gynecologists** in the public and private health system of Republic of Moldova.

Over 200 future nurses and students from the Republic of Moldova

learned about endometriosis, diagnosis, treatment and management from the presentations where we were invited as speakers until April 2023.

NATIONAL ENDOMETRIOSIS AWARENESS CAMPAIGNS IN EDUCATION INSTITUTIONS

ENDOMETRIOSIS - FROM TODAY'S TEENAGER TO TOMORROW'S WOMAN!

Launched in 2019 for the first time in Romania as an agreement with **World Endometriosis Organisations** and dedicated to teenagers, carried out in 25 countries of the world, as part of the common program established and voted at European Endometriosis Congress in Vienna in 2018.

This campaign continues to present time as a need for raising awareness in adolescents and teachers field.
